

Do you have a beautiful wood or multi-fuel burning stove?

With proper upkeep, it can remain a centrepiece in your home and will last for many years to come.

However, eventually it may need a new rope seal for the door, a new glass & gasket, firebricks or a new grate.

While some sales & repair people may have told you it is difficult to get parts or that you may have to replace the stove, this is not true.

A Clean Sweep Limited offers a Repair/Refurbishment service which will bring your stove back to life.
